**PORTABLE COMPACT  
DIGITAL AUDIO RECORDER**

WITH TOUCH SCREEN, USB PORT AND  
MICRO SD CARD SLOT

**DPR-2004** Bestellnummer 25.3940

**INSTRUCTION MANUAL**

## **Dear customers,**

Thank you for purchasing the Portable Digital Audio Recorder. This high quality digital audio recorder equips a leading color display touch panel and Li-Polymer rechargeable battery for easy operation. Please read the User's Guide carefully before you use the machine.

## **Important Notes**

The unit is suitable for indoor usage, please protect it against dripping water and splash water, high humidity and heat condition, and keep away from fire and direct sun shine.

Please do not take apart or repair the recorder by yourself, please bring the device back to your retailer or to a local service vendor for repair and assistance.

Please use the DC power charger of USB type in correct 5V DC specification.

The built-in color display touch panel is a fragile electronic part, please do not press on it heavily and do not touch it with sharp objects. We suggest you use dry, soft cloth to clean it.

The SD card is a very precise electronic device, please use it according to the following notice: Prevent taking the SD card out of the machine during data transmission. Please make sure the SD card you are using has been formatted (the format type is FAT32). Please release the write protection switch of SD card before you record. We do not guarantee the function, operation or life of any SD card that is used in the device. We do not also take any responsibility of indemnity for the damaged of SD cards. Like any digitally stored data, data shall be backed up regularly. In no event, we will be liable to any indirect incidental, special or consequential damaged to any person caused by, or for any lost profits, lost savings, loss of use, loss revenues or lost data arising from or relating to this device.

**The recorder processes large amount of data during recording and playback, we strongly suggest you to use high speed SD card as extension memory only, to prevent noise, data lost or any transmission problem.**
