**For sound
living**

Home Entertainment Guide

**Bringing
sound to life**

The joy of pure sound

Experience the joy of home cinema and audio in its purest form. From bright, crisp colours to rich, clear tones, Pioneer brings the power and presence of the original performance right into your home. Play your favourite music or videos effortlessly from any network device, computer, portable player, streaming service or even good, old-fashioned discs. So, whatever the content, whatever the medium, just sit back, relax and listen as we bring your sound to life.

AV Receivers & Packages

Get the power to amplify your music and movies into pure, living sound. Pioneer's full range of powerful, efficient AV Receivers link your music sources together for the highest-quality experience. Find the perfect companion for your iPod, iPad or iPhone with AirPlay, complemented by support for Windows 7, DLNA streaming, MHL connections and iOS as well as Android remote control apps. Discover the power of audiophile-grade Class D amplification.

SC-LX86-K/S

9.2-channel AV Receiver with 4K video signal Pass Through, 4 Zone control, 192 kHz/24 bit WAV and FLAC as well as 2.8224 MHz DSD via USB, asynchronous USB-DAC 192 kHz/32 bit, 4-16 Ohm speaker support and 190 W output per channel. MHL connector for Android devices, wireless LAN and PQLS (bit-stream) multi surround for the ultimate in connectivity. AIR Studios & THX Ultra2 Plus certified. Audiophile-grade Class D amplification.

◀ SC-LX86-K/S

We like the look of our AV Receivers from both the front and the back. For all the ins and outs of these masterpieces of home entertainment, simply visit the Pioneer website where you can view the back panels of all our receivers in full detail.

www.pioneer.eu/receiver

AirPlay Wireless Audio

Want to play music from your iPad, iPhone or iPod touch? **AirPlay** lets you stream any content from your Apple device to your AV Receiver. The AirPlay icon appears automatically when your device and AV Receiver are connected to the same Wi-Fi network. Playing music from your PC or Mac running iTunes is just as easy.

Remote Control of the Future

iControlAV2012 lets you control your receiver's main functions via your smartphone or tablet to completely customise your audio experience. Adjust exclusive Pioneer technologies like PQLS, Auto Phase Control Plus and Virtual Speakers at the swipe of a finger.

Pioneer ControlApp lets you turn the receiver on and off, adjust sound modes, change inputs and control internet radio and DLNA streaming content. Dedicated apps are available for iOS and Android.

Strong and Clearer

Auto Phase Control Plus generates even more accurate, robust and fully balanced sound from 7.1 and/or 7.2 multi-channel set-ups. By monitoring for phase differences between the LFE (low frequency effect) and the main signals in real time, Auto Phase Control Plus automatically compensates for the gap, eliminating distortion for stronger bass and clearer high tones.

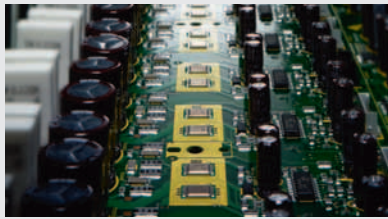

SC-LX76-K/S

9.2-channel AV Receiver with 8 x HDMI, 4K video signal Pass Through, 4-16 Ohm speaker support and 180 W output per channel. 192 kHz/24 bit WAV and FLAC as well as 2.8224 MHz DSD via USB. MHL connector for Android devices, wireless LAN and PQLS (bit-stream) multi surround for the ultimate in connectivity. AIR Studios Monitor & THX Select2 Plus certified. Audiophile-grade Class D amplification.

SC-LX56-K/S

9.2-channel AV Receiver with 8 x HDMI, 4K video signal Pass Through, 4-16 Ohm speaker support, 11 x speaker terminals and 170 W output per channel. MHL connector for Android devices, wireless LAN and PQLS (bit-stream) multi surround. THX Select2 Plus certified. Audiophile-grade Class D amplification.

Direct Energy HD

Direct Energy HD amplifiers are built into all SC AV Receivers to deliver the true audio potential of uncompressed sources such as Blu-ray discs as well as other high-definition audio content. The short signal paths ensure impeccable sound quality, while low receiver temperatures and significantly lower power consumption (-44% compared to Analogue Amps) bring extra benefits to the table.

SC-2022-K

7.2-channel AV Receiver with 7 x HDMI, AirPlay, DLNA, iControlAV2012, Jitter Reduction, Phase Control Plus and 170 W output per channel. Bluetooth-ready (optional AS-BT200) and wireless LAN-ready (optional AS-WL300). Audiophile-grade Class D amplification.

AIR STUDIOS
MONITOR

AIR Studios

Discover the power of AIR Studios tuning, the benchmark for high-fidelity sound. Together with AIR Studios engineers, Pioneer has fine-tuned a selection of products to deliver audio output with as much of the purity and precision of the original as possible.

Asynchronous USB-DAC 192 kHz/32 bit

Asynchronous USB-DAC lets you bypass the internal DAC (Digital Analogue Converter) and clock in your PC, in order to use the high quality DAC inside your receiver for the ultimate fidelity.

DSD, FLAC, WAV,...

Stream high-quality audio formats via USB or LAN with 96 or even 192 kHz sampling frequencies for a superior quality performance. Supported audio formats include WAV, MP3, WMA, AAC and FLAC. The SC-LX86 and SC-LX76 even support DSD (Direct Stream Digital) files with a dazzling 2.8224 MHz sampling frequency via USB.

4K Pass Through

Experience real definition with the latest official HDTV specification for ultra-high resolution video. The first 4K Blu-ray Discs are expected in 2013. Our receivers with 4K Pass Through will be able to transfer these signals to your TV.

Android Audio/Video Playback with MHL

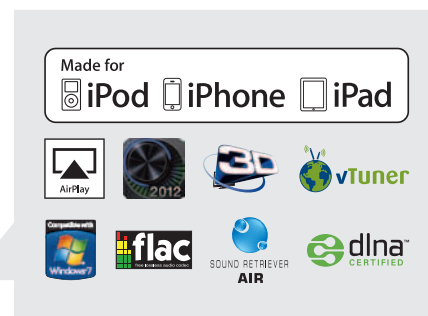

Stream high-quality video and audio from your Android device using a single cable thanks to the MHL compatible HDMI connection on the front panel. You can even charge your MHL compatible device through your receiver.

VSX-922-K/S

7.2-channel AV Receiver with 6 x HDMI, AirPlay, DLNA, built-in Video Scaler, Phase Control Plus, PQLS and wide audio file support in resolutions up to 192 kHz/24 bit, surround sound in HD and 150 W output per channel. The VSX-922-K/S also includes LAN support with easy-to-operate worldwide Internet Radio and music streaming. Adapters for Bluetooth streaming or Wi-Fi are also available.

VSX-1122-K

7.2-channel AV Receiver with 7 x HDMI, AirPlay, DLNA, iControlAV2012, Jitter Reduction, Phase Control Plus and 150 W output per channel. Bluetooth and wireless LAN-ready (optional AS-WL300).

VSX-827-K/S

7.1-channel AV Receiver with 6 x HDMI, AirPlay, DLNA, Pioneer ControlApp, Video Upscaling, vTuner Internet Radio and 130 W output per channel.

VSX-527-K/S

5.1-channel AV Receiver with 6 x HDMI, AirPlay, DLNA, Pioneer ControlApp, vTuner Internet Radio and 130 W output per channel.

VSX-422-K/S

5.1-channel AV Receiver with 4 x HDMI, HD Audio & MCACC room calibration and 130 W output per channel.

VSX-322-K

5.1-channel AV Receiver with 4 x HDMI, Dolby TrueHD, DTS-HD Master Audio and 100 W output per channel.

VSX-S500-K/S

6-channel AV Receiver with Bluetooth-ready (optional AS-BT200) and wireless LAN-ready (optional AS-WL300) network features, Internet Radio (SHOUTcast), FM/AM Tuner, 3D HDMI, HD audio, 1080p connectivity and 100 W output power per channel. ECO mode for reduced power consumption. Made for iPod and iPhone.

VSX-S300-K/S

6-channel AV Receiver with Bluetooth-ready (optional AS-BT200), FM/AM Tuner, HD audio, 3D HDMI connectivity and 100 W output power per channel. ECO mode for reduced power consumption.

AV Receiver Speaker Packages

(((*SOUND WING*)))

Get the ultimate wide surround sound experience with the dedicated SOUND WING front speaker. Sound extends in all directions and is also reflected to the TV, enhancing the natural impression that the sound is coming from the screen. Ultra-slim satellite and bar-type speaker designs give the system a clean, stylish look.

HTP-SLH600

2.1 Home Cinema Package with S-HV600B SOUND WING bar type speaker, S-SLW500 slim subwoofer and VSX-S300-K AV Receiver.

S-HV500-LR

2.1 Home Cinema Package with S-HV500-LR SOUND WING satellite speakers, S-SLW500 slim subwoofer and VSX-S300-K AV Receiver.

HTP-SL100

5.1 Home Cinema Package with S-SL100-LR/CR satellite speakers, S-SLW500 slim subwoofer and VSX-S300-K AV Receiver.

HTP-SL050

2.1 Home Cinema Package with S-SL100-LR satellite speakers, S-SLW500 slim subwoofer and VSX-S300-K AV Receiver.

HTP-202

VSX-527-K AV Receiver with 5 compact S-11 surround speakers and S-21W subwoofer.

HTP-102

VSX-422-K AV Receiver with 5 compact S-11 surround speakers and S-21W subwoofer.

HTP-071

VSX-321-K AV Receiver with 5 compact S-11 surround speakers and S-22W subwoofer.

The
ultimate in
entertainment

Blu-ray Disc & DVD Players

Immerse yourself in the perfection of superior sound and vision, just as the director intended. Enjoy true 3D, spectacular 1080p picture quality and support for virtually any media format. Our latest generation Blu-ray Disc Players are the perfect solution for adding network and streaming services to your existing home entertainment setup. As well as discs, our DVD players support a wide range of digital media formats and upscale the video signal to 1080p HD for a superior viewing experience.

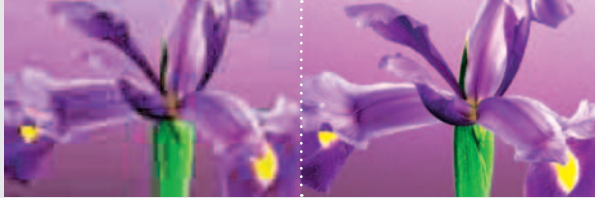

BDP-450

Blu-ray Disc Player offering superior sound quality thanks to the latest PQLS (bit-stream) multi-surround technology, Stream Smoother Link, iControlAV2012, IP Control, Super Audio CD and DVD-Audio. The player is also wireless LAN-ready and comes with a range of network features.

Natural, noise-free video

Stream Smoother reduces block noise and interference on lower bit-rate video content such as YouTube clips for finer and more detailed images.

Stream with DLNA

Music is meant to be shared, not stored. Which is why Pioneer Blu-ray Disc players are DLNA 1.5 certified so you can stream your MP3, WMA and even high-resolution WAV music files stored on your Mac, PC or mobile device to the Blu-ray Disc player over a home network. The ideal solution for accessing your large, portable music collection.

Odeo™ inside

Enjoy high-quality video whatever the source thanks to Odeo video processing technology from Marvell. Feel the difference that clear, natural video without noise or distortion makes at up to full-HD 1080p resolution.

AS-WL300 Wireless LAN Converter

The AS-WL300 wireless LAN converter turns your wireless LAN-ready Pioneer Blu-ray Disc player into the ultimate media centre for your entire home entertainment system. Simply connect it to the Ethernet port and a USB port on the Blu-ray Disc player to enjoy playback via DLNA without the need for extra cables.

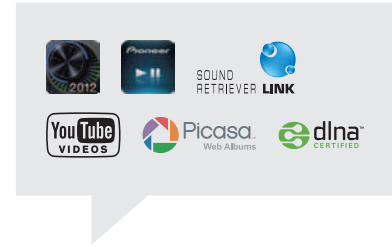

Broad file playback

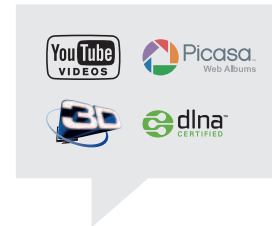

BDP-150-K/S

3D Blu-ray Disc Player with 3D support, PQLS (bit-stream) multi surround technology, Pioneer ControlApp and iControlAV2012, Stream Smoother Link, IP Control and Super Audio CD. Network capability support with audio and video streaming via YouTube and access to Picasa photo albums. Handles multiple file types such as DivX + HD, MKV, WMA, MP3 and FLAC*.

BDP-LX55

Incredibly high sound quality Blu-ray Disc Player with PQLS (bit-stream) multi surround, Pioneer ControlApp, iControlAV2012 Qdeo Video Processor with 2 HDMI outputs, high-grade audio parts, RS-232C IP Control. Wireless LAN-ready (optional AS-WL300) with multiple network features.

**3D vision,
360° sound**

Home Cinema Systems

Discover the difference with gripping 3D vision and heart-stopping 360° surround sound. From a compact 2.1 system to the full 5.1 setup, our Home Cinema Systems put you in the middle of the action for an on-the-edge-of-your-seat audio-visual experience. Play Blu-ray 3D Discs, DVDs, CDs and Super Audio CDs or access content on your network devices via built-in Wi-Fi support on advanced models. Redefine the meaning of home entertainment with Pioneer.

Blu-ray 3D Advanced

Meet our top-of-the-line Blu-ray 3D Home Cinema Systems featuring a USB input, DLNA, built-in Wi-Fi, our original Virtual 3D Sound technology with Virtual Depth, 2 HDMI inputs, HD audio, Sound Retriever technology, a karaoke function and an iPod/iPhone cradle. All models support Blu-ray 3D Discs, DVDs, CDs and Super Audio CDs while offering compatibility with the most widespread formats, including DivX + HD, MKV, WMA, MP3 and FLAC* files from both disc and USB.

BCS-HW929

2.1-channel Blu-ray 3D Home Cinema System with bar-style Sound Wing speaker & slim subwoofer. 550 W total power.

BCS-HF828

2.1-channel Blu-ray 3D Home Cinema System with 2 satellite Sound Wing speakers & slim subwoofer. 550 W total power.

Immersive, 360° sound

Without the need for additional speakers, Virtual 3D sound lets you enjoy an all-encompassing 360° sound experience, simulating Virtual Height, Virtual Surround Back, Virtual Depth and Virtual Wide speakers.

BCS-727

5.1-channel Blu-ray 3D Home Cinema System with 4 tall speakers, 1 centre speaker & slim subwoofer. 1100 W total power.

BCS-323

5.1-channel Blu-ray 3D Home Cinema System with 4 compact satellite speakers, 1 centre speaker & slim subwoofer. 1100 W total power.

BCS-SB626

2.1-channel Blu-ray 3D Home Cinema System with bar-style speaker & slim subwoofer. 550 W total power.

BCS-FS525

2.1-channel Blu-ray 3D Home Cinema System with 2 slim speakers & slim subwoofer. 550 W total power.

Blu-ray 3D

Our Blu-ray 3D Home Cinema Systems come with a USB input, DLNA, our original Virtual 3D Sound technology with Virtual Depth, 2 HDMI inputs, HD audio, Sound Retriever technology and a karaoke function. They include support for Blu-ray 3D Discs, DVDs, CDs and Super Audio CDs while offering compatibility with the most widespread formats, including DivX + HD, MKV, WMA, MP3 and FLAC* files from both disc and USB.

◀ BCS-424

5.1-channel Blu-ray 3D Home Cinema System with 4 tall speakers, 1 centre speaker & large subwoofer. 1100 W total power.

BCS-FS121

2.1-channel Blu-ray 3D Home Cinema System with 2 compact satellite speakers & large subwoofer. 550 W total power.

BCS-222

5.1-channel Blu-ray 3D Home Cinema System with 4 compact satellite speakers, 1 centre speaker & large subwoofer. 1100 W total power.

DVD

Stylish and powerful DVD surround sound systems complete with 1080p upscaling, USB playback and CD to USB recording (MP3), karaoke scoring and recording function and 5 Speaker Mode for louder volume. All models include support for DVDs and CDs, and offer compatibility with DivX, JPEG, MP3 and WMA files from both disc and USB.

DCS-424K

5.1-channel DVD Home Cinema System with 4 tall speakers, 1 centre speaker & large subwoofer.
1000 W total power.

DCS-222K

5.1-channel DVD Home Cinema System with 5 compact satellite speakers & large subwoofer.
300 W total power.

**The power
of harmony**

Audio Components

The whole is always greater than the sum of its parts. Our pure audio components are designed and built to fit seamlessly together, offering exquisite sound quality, superior accuracy, wide open sound, ultra-quick response, solid power and robust stability. Feel the harmony with Pioneer.

◀ A-30-K/S

2 x 70 W Direct Energy Class AB Amplifier with MM Phono input. Offers best-in-class sound quality.

◀ N-30-K/S

High-quality Network Audio Player with built-in AirPlay, DLNA support and front USB. Optional wireless LAN support via AS-WL300 wireless LAN converter. Plays music files from a variety of sources and formats, including hi-res 192 kHz/24 bit audio. Compatible with Pioneer ControlApp and AirJam.

◀ PD-30-K/S

Super Audio CD Player with aluminium panel and front USB. Full support for iPod/iPhone/iPad.

Amplifiers

A-70-K/S

2 x 90 W high efficiency power MOS FET Class D Amplifier with USB DAC, MM Phono input and MC support. Includes audiophile-grade components such as ESS 192 kHz/32 bit SABRE32DACs and twin black shielded transformers for power and pre-amp. Tuned by AIR Studios.

A-50-K/S

2 x 90 W high efficiency power MOS FET Class D Amplifier with MM Phono input. Optimised for the purest sound reproduction.

A-20-K/S

2 x 50 W Direct Energy Class AB Amplifier with MM Phono input. Offers best-in-class sound quality.

A-10-K/S

2 x 50 W Direct Energy Amplifier with MM Phono input.

Network Audio Players

N-50-K/S

Audiophile-grade Network Audio Player with asynchronous USB DAC, built-in AirPlay, DLNA support, Hi-bit 32 Audio Processing, front USB, Auto Level Control and Sound Retriever technology. Optional wireless LAN support via AS-WL300 wireless LAN converter. Features selected audiophile parts and construction details such as a double-layered chassis, isolated digital/analogue power supply with twin transformers and gold plated terminals. Plays music files from a variety of sources and formats, including hi-res 192 kHz/24 bit audio. Compatible with Pioneer ControlApp and AirJam.

Super Audio CD Players

PD-50-K/S

Audiophile-grade Super Audio CD Player with Hi-bit 32 Sound Processing, twin transformers, 192 kHz/32 bit Twin DAC, digital inputs (optical and coaxial) and stainless steel CD mechanism. Full support for iPod/iPhone/iPad.

PD-10-K/S

Super Audio CD Player with front USB.

Stereo Receivers

SX-20-K/S

2 x 100 W high power output Stereo Receiver with AM/FM tuner with RDS, MM Phono equaliser, Speaker A and B with large speaker terminals and aluminium front panel.

**Sonic power
and precision**

Speakers

Complete your sound system with the superior quality, power and precision of our speakers. From classic stereo to the full, multichannel surround sound experience, our range of sophisticated speaker systems covers the entire spectrum. For the ultimate music and cinema experience.

◀ **S-CN301-LR**

2-way compact, performance Speaker Set (100 W) with soft dome tweeter, glass fibre cone, as well as audiophile components and tuning. Cabinet in engineered eco-friendly wood veneer finish.

Horn-shaped 2 cm soft dome tweeter with polypropylene film capacitor to optimise the position between woofer and tweeter.

Air core coils for both woofer and tweeter to reduce sound distortion.

10 cm glass fibre cone with long stroke design to deliver quick response and powerful bass.

S-CN301-LR

21 mm thick baffle and gold plated bindings.

◀ S-ES3TB

5.0 Speaker Set. 3-way floor-standing speakers with large woofer, passive radiator and Phase control design. 1-way bookshelf speakers and 1-way centre speaker.

S-ESR2TB ▶

5.0 Speaker Set. Wide-range 3-way slim tall speakers with side bass. 1-way bookshelf speakers and 1-way centre speaker.

S-LM2 Series

Slim, tall 5.1 channel Theatre Speaker Set.

S-1EX

3-way reference Floor-standing Speaker (200 W) with concentric tweeter and midrange drivers, beryllium tweeter dome, magnesium midrange cone and high-linearity woofers with neodymium magnets.

S-2EX

3-way reference Bookshelf Speaker (200 W) with concentric tweeter and midrange drivers, beryllium tweeter dome, magnesium midrange cone and high-linearity woofer with neodymium magnets. CP-2EX speaker stand available.

S-7EX

3-way reference Centre Speaker (200 W) with concentric tweeter and midrange drivers, beryllium tweeter dome, magnesium midrange cone and high-linearity woofers with neodymium magnets. CP-7EX speaker stand available.

S-1EX

S-2EX

S-7EX

S-3EX

3-way reference Floor-standing Speaker (160 W) with concentric tweeter and midrange drivers, ceramic graphite tweeter dome, magnesium midrange cone and high-linearity woofers.

S-4EX

3-way reference Bookshelf Speaker (160 W) with concentric tweeter and midrange drivers, ceramic graphite tweeter dome, magnesium midrange cone and high-linearity woofer. CP-4EX speaker stand available.

S-8EX

3-way reference Centre Speaker (160 W) with concentric tweeter and midrange drivers, ceramic graphite tweeter dome, magnesium midrange cone and high-linearity woofers. CP-7EX speaker stand available.

S-81-K

S-81B-LR-K + CP-81B-K

S-81C-K

S-81-K/QL

4-way Floor-standing Speaker (130 W) with super tweeter, concentric tweeter and midrange drivers, titanium tweeter dome, aramid midrange cone, high-linearity woofers and magnetic grille.

S-81B-LR-K/QL/W

2-way Bookshelf Speaker (130 W) with concentric tweeter and woofer drivers, titanium tweeter dome, aramid woofer cone, high-linearity woofer and magnetic grille. CP-81B-K/MK speaker stand available.

S-81C-K/QL

3-way Centre Speaker (130 W) with concentric tweeter and midrange drivers, titanium tweeter dome, aramid midrange cone, high-linearity woofers and magnetic grille.

Series 8 Speakers are available in real whitewashed ash veneer (QL) or high-gloss black (K).

The S-81B-LR Bookshelf Speaker is also available in real walnut veneer (W).

S-71-K

3-way Floor-standing Speaker (130 W) with aramid woofer cones, down-firing bass-reflex port, concentric tweeter and midrange drivers, titanium tweeter dome, aramid midrange cone, high-linearity woofers, flush surface design and removable driver grilles.

S-71B-LR-K

2-way Bookshelf Speaker (130 W) with concentric tweeter and woofer drivers, titanium tweeter dome, aramid woofer cone, high-linearity woofer, flush surface design and removable driver grilles. CP-71B speaker stand available.

S-71C-K

2-way Centre Speaker (130 W) with concentric tweeter and woofer drivers, titanium tweeter dome, aramid woofer cone, high-linearity woofer, flush surface design and removable driver grilles.

S-71C-K

S-71B-LR-K + CP-71B

S-71-K

S-31-LR-K/QL

2-way Floor-standing Speaker (120 W) with glass fibre woofer cones and soft dome tweeter, down-firing bass-reflex port, flush surface design and removable driver grilles.

S-31B-LR-K/QL

2-way Bookshelf Speaker (120 W) with glass fibre woofer cones and soft dome tweeter, flush surface design and removable driver grilles. CP-31B speaker stand available.

S-31C-K/QL

2-way Centre Speaker (120 W), with glass fibre woofer cones and soft dome tweeter, flush surface design and removable driver grilles.

Series 3 Speakers are available in light (QL) or black wood (K) finish.

S-31C-K

S-31B-LR-K +
CP-31B

S-31-LR-K

S-81W-MK

Active Subwoofer with high-linearity 30 cm cone woofer. Separated 300 W RMS digital amplifier.

CS-7070

3-way 190 W Stereo Speaker Set.

S-71W

Active Subwoofer with 25 cm cone woofer and bass-reflex cabinet. 160 W RMS amplifier.

CS-5070

3-way 140 W Stereo Speaker Set.

S-W250S(-W)

Active Subwoofer with 30 cm cone woofer and 30 cm cone passive radiator. Separated 250 W RMS digital amplifier.

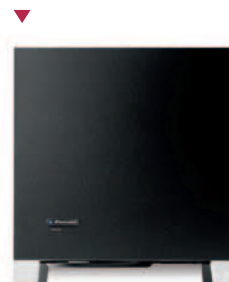

CS-3070

3-way 120 W Stereo Speaker Set.

S-51W

Active Subwoofer with 20 cm cone woofer and bass-reflex cabinet. 150 W RMS amplifier.

**Music
everywhere**

Audio Systems

Stream music to every corner of every room of your house with our compact yet powerful audio systems. All models include wireless support, so you can play digital audio files from a mobile device, PC or tablet connected to your home network. Experience music without borders.

Wireless Sound Systems

Get the real unplugged experience with our clever wireless sound systems. No more speaker cables, no more clutter, just stunning quality sound streamed from your mobile device or networked PC or Mac to every corner of your pad. Use AirPlay or DLNA over Wi-Fi to truly set your music free. Or plug in your iPhone, iPod or iPad via USB and charge it at the same time.

A3 (XW-SMA3-K/W)

Splash-proof* 2-way Wireless Sound System. The A3 comes with a rechargeable battery, built-in Wi-Fi, DLNA, AirPlay and USB for direct playback and charging** of iPad, iPod touch and iPhone.

Made for

iPod iPhone iPad

Streaming music made easy

You've got the power in your hands! You can connect to the SMA directly on any Apple iDevice via the standard AirPlay user interface, or stream music straight from your iTunes playlists on your Mac or PC. Or you can connect with a DLNA compliant setup, including Android mobile devices. All systems also support Wireless Direct, so you can stream your music, even without a wireless router. So what are you waiting for? Get streaming with SMA!

A4 (XW-SMA4-K)

3-way Wireless Sound System with 2 tweeters, 2 woofers and 1 subwoofer. The A4 comes with built-in Wi-Fi, DLNA, AirPlay and USB for direct playback and charging** of iPad, iPod touch and iPhone.

A1 (XW-SMA1-K/W)

2-way Wireless Sound System. The A1 comes with built-in Wi-Fi, DLNA, AirPlay and USB for direct playback and charging** of iPad, iPod touch and iPhone.

X-DS301-K

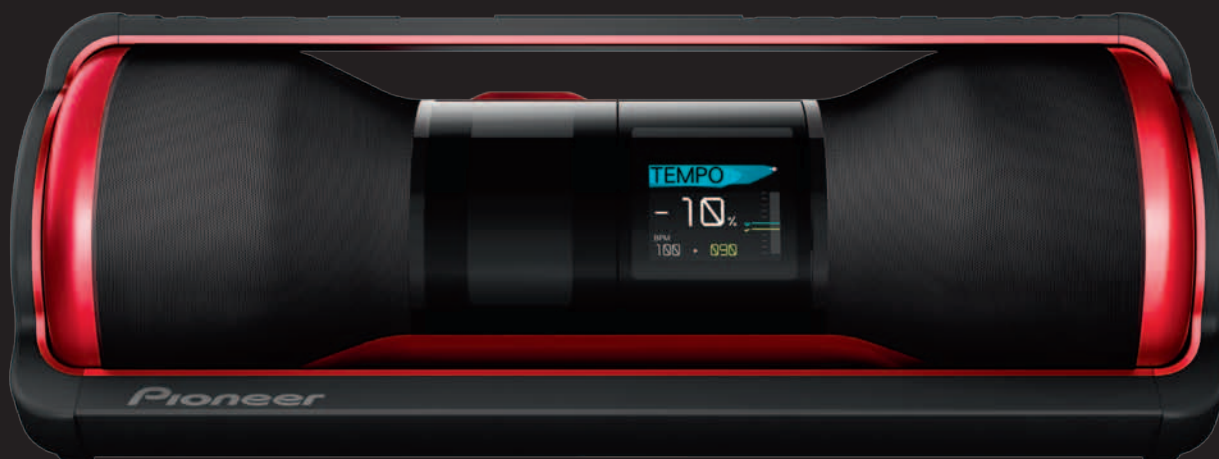

iPod/iPhone clock radio with 3 alarm modes: Buzz, iPod and FM radio. Comes with a handy remote control.

*Not applicable with X-SMC1

Introducing the world's first line of dance equipment built to inspire dancers just like you. However you move, Pioneer offers you several unique features for training, rehearsing and competing. High-powered audio performances infused with an exclusive dance EQ. Everything you need to flaunt your skills, no matter how or where you dance.

TYPE-Z (STZ-D10Z-R)

This boombox is rugged, splash-proof and loud. Boasting a full 40 W of sound, the Type-Z fills your average-sized dance studio with pumping sound while its flashy looks add style and presence to any performance – indoors or out. Plug in your iPod or iPhone or connect your USB device to start breaking, popping or locking! Or get your own music library analysed by MIXTRAX and copied to the player's 4 GB of internal memory.

TYPE-T (STZ-D10T-G)

This robust, drip-proof little number is easy to bring along to your favourite hangouts. The Type-T includes Dance Cues and 8 Beat Skip features to select the best parts of your favourite tracks, while Dance Sound pumps up the sound and rhythm to make them really take off.

TYPE-S (STZ-D10S-L)

Weighing in at just 0.8 kg and 31.9 cm high, the Type-S STEEZ Compact is small enough to fit in your backpack or even in your hand for instant fun, wherever you go. Connect your iPod, iPhone or other mobile device via USB and get moving to the beat!

SE-D10M-W

Reproduce even the deepest bass on your favourite tracks with these high-fidelity STEEZ Headphones. The smart, foldable design lets you take them anywhere while the interchangeable ear pads make sure you'll look good on the way. Red and green pads included.

NSP-C10P-K

The STEEZ Portable is extremely compact and easy to carry around with you. But don't let its small size fool you: this bad boy mixes like a real DJ.

MIXTRAX

MIXTRAX is our proprietary music management software that analyses your music library to determine the beats per minute, music type, chorus location, and other key attributes to create your own unique non-stop dance performance mixes. Once your favourite tracks are analysed and copied to the internal memory you can:

- start a battle in the music genre of your choice with Auto Battle Mode.
- create a non-stop mix using DJ MIX.
- adjust track speed to match the music to different dance styles using TEMPO Control, while the pitch remains the same.
- set Dance Cues and 8 Beat Skip to find the best parts of a track.

**Your sound,
your space**

Headphones

Noise cancelling

◀ SE-NC31C-K

Fully-enclosed, dynamic in-ear noise-cancelling (up to 90%) headphones.

SE-NC21M

Stylish, on-ear noise-cancelling (up to 90%) headphones. Accessories include a carrying case and in-flight plug adapter.

Bass

SE-CL721/711
